### **Assumptions Map**

# **Critical Assumption**

If not true, you might fail

You should test this right now

You should test this in a near future during your product development

## Non-Critical Assumption

If not true, you will be still ok

Easy to test but don't hurry, it's not a priority

Don't bother about this

#### Easy to test

Quick and dirty! Short time and few resources.

#### Difficult to test

You will need to allocate a lot of resources and time for testing this assumption
